and responses:

Jan (Van Stedum) Decker - decker@netnitco.net

Since I graduated from Lincoln, I married my husband, raised 4 kids in Elmhurst Il. I worked as a RN in a hospital . Then I moved to Crown Point, IN where I am so blessed to be able to live on a lake. I then switched to doing community hospice nursing and just recently lowered my hours to 4 days a week plus on call. Anyone else live in NW Indiana?

Roger Fritz - fritzcat11@yahoo.com

Spent two years at U of Wis -River Falls...Agriculture Engineering, then three at U of W.-Madison ...Civil Engineering. 1970 to Aug 2012 worked 42 years and 5 days with same company (Bechtel Corp) doing heavy civil construction...mostly power plants and transit projects. 15 jobs in 10 locations (Tumwater Wa, Modesto Ca, San Francisco Va, Washington DC area twice, Milwaukee twice, Phoenix, AZ, Jubail Saudi Arabia, and Lakeville, Ma.) My wife of 45 years and I are now retired at Union Hall Virginia. It's rural, on a large lake and the weather here is ideal. We are still adjusting to retirement and settling into a new house.

I like this topic. I often wonder if I have not crossed paths with former classmates and never knew it.

Hi Kent,

Gary (Tiny) asked me to send an update to the newsletter.

On July 28th Gary's condition was changed to "life threatening". We were told that it could be as little as a month's time. Gary is not afraid of death and looks forward to meeting our Lord on the other side. For those of you that believe in the Lord, Jesus Christ and the power of prayer, Gary and I are both asking that you would pray that He is merciful and would take him from this life sooner than later.

After lunch is the best time to visit. Please be aware that as things progress, he will sleep more. A card with a memory from the "good old days" would also be nice. I can put them on his bulletin boards. They do not have phones in the rooms.

Gary Flaminio - Room 2315
Mount View Care Center
2400 Marshall Street
Wausau, WI 54403

Thank you.

Renee Flaminio

1. Things you did in school and would like to confess now.

Statute of Limitations says you won't be held accountable any more.

Editor had a master key to the high school during his Jr & Sr years. Came in handy!

Editor took a test tube with gasoline and moth crystals (to "supercharge" my gas tank) to math class. It broke when I dropped it on the floor. We had to evacuate the class room for a while.

Editor and a friend made gunpowder (polvo de escopeta) as a demonstration for Spanish class
And we lit it! That was before smoke detectors!

Editor "snuck in" to 8th grade math teacher's desk and copied the answers to a few math problems out of her answer book.

Only time the answer book had a wrong answer! Teacher was really, really suspicious of me after that.

2. Quirky things our teachers did.

Mr Eulberg continually working on his finger nails with his feet up on the desk and throwing erasers at you if you weren't paying attention.

Mr Coulter rapping you on the head with his knuckle when he snuck up on you from behind.

3. Anyone playing lawn games this summer?

Croquet, Jarts, Badminton, horseshoes, Bocci ball, etc?

4. Wool - You still own any wool clothing?

Or, do you itch just thinking about it?
