## Lincoln High Newsletter

---

**This week's topic:**

**What happened to you or what do you think about this past year?**

**Good things, bad things, whatever.**

---

**Terry Stake - [twots@wctc.net](mailto:twots@wctc.net)**

**This year as been quite a year. I went to Canada twice and caught over 300 walleyes. I brought home what you are allowed, ate some, and released the rest. I shot my buck in the first 20 minutes of the season. The biggest thing that happened to me was that I was diagnosed with Multiple Sclerosis in September and it was traced back at least 12 years. My balance and walking is most affected. I have some trouble with my eyesight as well. I am learning to adjust my life style. I can't play golf any more. Those that know me might say I never could play golf. I have trouble walking any distance or on uneven ground.**

---

**Bob Schmidt - [2803chopper@gmail.com](mailto:2803chopper@gmail.com)**

**My dog died. Was informed I'm doing 18 months for tax evasion and found out I have three illegitimate children all wanting to go to college. Other than that, pretty good year.**
