Lincoln High Newsletter

This week's topics:

1. What did you do over Labor Day weekend?
2. Have you ever found any Indian artifacts?
3. Did you home school?
4. Better late than never. Did it ever apply to you?
5. Did you ever have anything published in the Reader's Digest?
6. Do you still take pics with a "film" camera?
7. What's your favorite "computer game"?
8. What was the best piece of advice that your parents gave you?
9. If you are/were a teacher, what did you do during your "summer vacation"?
10. Controversial? What do you think we should do about Syria?
11. Anything else you'd care to write about.

and responses:

1. Duck Dynasty - When I first saw the previews, I thought 'How Dumb'.....and did not watch it. Several months passed and my daughter told me how much she enjoys watching it. Then my grown granddaughters commented that they enjoyed the shows. Finally, my husband and I began to watch. We were LAUGHING out loud!! It is a fun show.....honest, and based on family values. NO showy boobs, nor bedroom scenes.....we think it is very refreshing. Try to watch it.....you just might like it.

LHS class of 64

Kathy Gotter gotterkd@yahoo.com writes:

Class of 64,

Garage sales: In case anyone does not have a story on this they can stop out to Lake Sherwood to visit Roger Gray and Steve Harding during out Salesman's Sample Sale/Garage Sale etc which entails cold beer, oldies, and stories of the past along with cool stuff . Classmates are always welcome and if lucky may even catch the elusive Dan McGlynn or Gary Bushman having a cold one or two.

Friday thru Monday 9-5

Have a great Labor Day weekend...

Chuck Hinners Chuck@crgfinancialconsulting.com writes:

First the rate of inflation as published by the feds is a whopper of a lie!

Food and fuel costs are conveniently excluded.

The government is printing ONE TRILLION of counterfeit (paper) money this year

With a sixteen trillion monetary base, that works out to 6.66% inflation

Medical costs and college tuition have increased faster than the published rates of inflation

By definition, some goods and services will always increase faster than the average rate of inflation for the same reason that different sectors of the stock market grow more quickly than the average stock. Medicine and Education are manipulated markets. College education is the biggest con game going today. Kids are indoctrinated and taught what rather than how to think. Those of us who escaped being indoctrinated as sheeple are the last surviving hope.

The solution which I have promoted for several years but no so-called conservatives or politicians will touch is a tax strike to shut down the unconstitutional federal government.

Men in Heaven

When everybody on earth was dead and waiting to enter Heaven, God appeared and said, "I want the men to make two lines. One line for the men who were true heads of their household, and the other line for the men who were dominated by their women. I want all the women to report to St. Peter."

Soon, the women were gone, and there were two lines of men. The line of the men who were dominated by their wives was 100 miles long, and in the line of men who truly were heads of their household, there was only one man.

God said to the long line, "You men should be ashamed of yourselves; I created you to be the head of your household! You have been disobedient and have not fulfilled your purpose! Of all of you, only one obeyed. Learn from him."

God turned to the one man, "How did you manage to be the only one in this line?"

The man answered, "My wife told me to stand here."

1. What do you think of the TV show - Duck Dynasty? A bunch of hillbillies or?
2. Medical costs and College tuition have gone up far faster than the rate of inflation. Why?
 3. Your best "garage sale" purchase.
 4. Anything else you care to write about.
